Web Announcement 2227

Updates Regarding National Correct Coding Initiative (NCCI) Quarter 1 2020 Files

The Medicaid Management Information System (MMIS) was updated in December 2019 with the Centers for Medicare & Medicaid Services (CMS) National Correct Coding Initiative (NCCI) Quarter 1 2020 files. The updates were effective on claims with dates of service on or after January 1, 2020. Following this implementation, CMS required replacement files to be added to the Quarter 1 2020 update. The replacement files were added to MMIS in March 2020. By implementing the replacement files, CMS is temporarily deleting procedure-to-procedure (PTP) edits with several radiopharmaceuticals retroactive to January 1, 2020.

Impacted claims processed on or after January 1, 2020, through March 26, 2020, that denied prior to the replacement files being added to MMIS will be automatically reprocessed. A future web announcement will notify providers when the impacted claims will be reprocessed.
